- **DevOps & Containers:** Docker, Containerized Applications
- **Version Control & Collaboration:** Git, GitHub, Agile Development

WORK EXPERIENCE

FULL STACK DEVELOPER July 2025 - Present

APRO IT SOLUTIONS, India, Kerala

- Design and implement interactive, responsive user interfaces using React and Next.js, optimizing for both performance and usability.
- Build and maintain server-side logic and APIs with Node.js, ensuring smooth integration with databases like MongoDB and third-party services.
- Customize and extend WordPress themes and plugins, ensuring a seamless experience for end-users while maintaining best practices for scalability and security.
- Containerized applications using Docker to standardize development, testing, and production environments.

FULLSTACK DEVELOPER (WORDPRESS) DEC 2023 - JUNE 2025

MIDNAY, India, Kerala

- Developed and maintained custom WordPress websites, including plugin development and advanced theme customization.
- Implemented custom features using PHP, JavaScript, and WordPress hooks, ensuring clean and reusable code.
- Optimized WordPress sites for page speed, SEO, and mobile responsiveness.
- Worked with MySQL databases, handling complex queries and ensuring data consistency.
- Collaborated with designers and stakeholders to deliver high-quality, client-focused solutions.

FREELANCE JUNE 2023 - DEC 2023

India, Kerala

- Delivered end-to-end WordPress and full-stack solutions for multiple clients based on business requirements.
- Developed custom WordPress plugins and themes to extend core functionality.
- Built dynamic front-end components using JavaScript, HTML5, and CSS3.
- Ensured code quality, performance optimization, and bug fixing across projects.
- Managed client communication, timelines, and project delivery independently.

FULLSTACK DEVELOPER INTERN
JAN 2023- MAY 2023

GALTECH TECHNOLOGIES PVT LTD, India, Kerala

- Assisted in developing WordPress-based applications and custom web features.
- Worked with PHP, JavaScript, and MySQL to implement and enhance application functionality.
- Gained hands-on experience in full-stack web development workflows.
- Supported testing, debugging, and feature enhancements under senior developer guidance.

FREELANCE
APRIL 2020 - DECEMBER 2022

Kerala, India

- Developed and maintained web-based applications and websites for small clients.
- Handled bug fixing, feature updates, and website maintenance.
- Built foundational experience in front-end and back-end development concepts.

EDUCATION

Bachelor of Computer Application
September 2025

Manipal University

PROJECTS

• **Laundry Service Application**

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, Firebase Cloud Messaging (FCM), REST APIs

- Developed RESTful APIs using Node.js and Express.js with secure JWT-based authentication, MongoDB schema design via Mongoose, automated push notifications using Firebase Cloud Messaging (FCM), and MVC architecture for scalable backend development.

• **Admin Dashboard**

Tech Stack: Node.js, Express.js, Socket.IO, MongoDB, REST APIs

- Developed backend REST APIs using Node.js and Express.js, integrating MongoDB for data management and implementing real-time admin notifications and updates with Socket.IO.
